PACKAGES AND PRICES

Tier	India	Australia	United Arab Emirates	United Kingdom	Brazil	South Africa
Starter	₹3L	$5,400	AED 13,800	£2,900	R$ 19.500	R 62 000
Growth	₹6L	$10,800	AED 27,600	£5,700	R$ 39.000	R 123 500
Premium	₹10L	$18,000	AED 46,000	£9,500	R$ 65.000	R 205 500

Standard packages start from ₹3L; custom engagements are scoped separately. Each market has its own price list. Scope and price are agreed in writing before work starts: 50% to begin, 50% on delivery. Running costs (messaging, AI usage, numbers and minutes, CRM, hosting, domain) are billed to you by the providers, on your own accounts, and listed before you commit. Prices as at October 2026.

HOW IT RUNS

01 **Diagnose.** Find where the system leaks.
02 **Map.** Draw the current flow.
03 **Design.** Agree the system in writing.
04 **Build.** Make it real.
05 **Integrate.** Connect it to what you use.
06 **Launch.** Go live, carefully.
07 **Measure.** See what changed.
08 **Improve.** Tune it as the business changes.

SELECTED WORK

Mantron · Built by Soarin Clevan
Self-serve diagnostic and conversion system. Live at mantron.in.

Barsat Engineers · Client project
Website and digital infrastructure. In progress: the new website is not yet live.

No invented clients, testimonials or metrics. Nothing is claimed as a result until it is live and measured.

WHAT WE WILL NOT PROMISE

Google rankings, a place in an AI Overview, or that an assistant will recommend you: those systems decide for themselves and none of them sells placement. What is promised is the work, a fixed scope and price, a handover onto accounts you own, and honest reporting that includes what did not move.
